Form W-4 (2023)

General Instructions

Section references are to the Internal Revenue Code.

Future Developments

For the latest information about developments related to Form W-4, such as legislation enacted after it was published, go to www.irs.gov/FormW4.

Purpose of Form

Complete Form W-4 so that your employer can withhold the correct federal income tax from your pay. If too little is withheld, you will generally owe tax when you file your tax return and may owe a penalty. If too much is withheld, you will generally be due a refund. Complete a new Form W-4 when changes to your personal or financial situation would change the entries on the form. For more information on withholding and when you must furnish a new Form W-4, see Pub. 505, Tax Withholding and Estimated Tax.

Exemption from withholding. You may claim exemption from withholding for 2023 if you meet both of the following conditions: you had no federal income tax liability in 2022 and you expect to have no federal income tax liability in 2023. You had no federal income tax liability in 2022 if (1) your total tax on line 24 on your 2022 Form 1040 or 1040-SR is zero (or less than the sum of lines 27, 28, and 29), or (2) you were not required to file a return because your income was below the filing threshold for your correct filing status. If you claim exemption, you will have no income tax withheld from your paycheck and may owe taxes and penalties when you file your 2023 tax return. To claim exemption from withholding, certify that you meet both of the conditions above by writing "Exempt" on Form W-4 in the space below Step 4(c). Then, complete Steps 1(a), 1(b), and 5. Do not complete any other steps. You will need to submit a new Form W-4 by February 15, 2024.

Your privacy. If you have concerns with Step 2(c), you may choose Step 2(b); if you have concerns with Step 4(a), you may enter an additional amount you want withheld per pay period in Step 4(c).

Self-employment. Generally, you will owe both income and self-employment taxes on any self-employment income you receive separate from the wages you receive as an employee. If you want to pay income and self-employment taxes through withholding from your wages, you should enter the self-employment income on Step 4(a). Then compute your self-employment tax, divide that tax by the number of pay periods remaining in the year, and include that resulting amount per pay period on Step 4(c). You can also add half of the annual amount of self-employment tax to Step 4(b) as a deduction. To calculate self-employment tax, you generally multiply the self-employment income by 14.13% (this rate is a quick way to figure your selfemployment tax and equals the sum of the 12.4% social security tax and the 2.9% Medicare tax multiplied by 0.9235). See Pub. 505 for more information, especially if the sum of self-employment income multiplied by 0.9235 and wages exceeds \$160,200 for a given individual.

Nonresident alien. If you're a nonresident alien, see Notice 1392, Supplemental Form W-4 Instructions for Nonresident Aliens, before completing this form.

Specific Instructions

Step 1(c). Check your anticipated filing status. This will determine the standard deduction and tax rates used to compute your withholding.

Step 2. Use this step if you (1) have more than one job at the same time, or (2) are married filing jointly and you and your spouse both work.

Page 2

If you (and your spouse) have a total of only two jobs, you may check the box in option (c). The box must also be checked on the Form W-4 for the other job. If the box is checked, the standard deduction and tax brackets will be cut in half for each job to calculate withholding. This option is roughly accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld, and this extra amount will be larger the greater the difference in pay is between the two jobs.

Multiple jobs. Complete Steps 3 through 4(b) on only one Form W-4. Withholding will be most accurate if you do this on the Form W-4 for the highest paying job.

Step 3. This step provides instructions for determining the amount of the child tax credit and the credit for other dependents that you may be able to claim when you file your tax return. To qualify for the child tax credit, the child must be under age 17 as of December 31, must be your dependent who generally lives with you for more than half the year, and must have the required social security number. You may be able to claim a credit for other dependents for whom a child tax credit can't be claimed, such as an older child or a qualifying relative. For additional eligibility requirements for these credits, see Pub. 501, Dependents, Standard Deduction, and Filing Information. You can also include other tax credits for which you are eligible in this step, such as the foreign tax credit and the education tax credits. To do so, add an estimate of the amount for the year to your credits for dependents and enter the total amount in Step 3. Including these credits will increase your paycheck and reduce the amount of any refund you may receive when you file your tax return.

Step 4 (optional).

Step 4(a). Enter in this step the total of your other estimated income for the year, if any. You shouldn't include income from any jobs or self-employment. If you complete Step 4(a), you likely won't have to make estimated tax payments for that income. If you prefer to pay estimated tax rather than having tax on other income withheld from your paycheck, see Form 1040-ES, Estimated Tax for Individuals.

Step 4(b). Enter in this step the amount from the Deductions Worksheet, line 5, if you expect to claim deductions other than the basic standard deduction on your 2023 tax return and want to reduce your withholding to account for these deductions. This includes both itemized deductions and other deductions such as for student loan interest and IRAs.

Step 4(c). Enter in this step any additional tax you want withheld from your pay **each pay period**, including any amounts from the Multiple Jobs Worksheet, line 4. Entering an amount here will reduce your paycheck and will either increase your refund or reduce any amount of tax that you owe.

Form CT-W4 Instructions

Employee General Instructions

Form CT-W4, *Employee's Withholding Certificate*, provides your employer with the necessary information to withhold the correct amount of Connecticut income tax from your wages to ensure that you will not be underwithheld or overwithheld.

You are required to pay Connecticut income tax as income is earned or received during the year. You should complete a new Form CT-W4 at least once a year or if your tax situation changes.

If your circumstances change, such as you receive a bonus or your filing status changes, you must furnish your employer with a new Form CT-W4 within ten days of the change.

Gross Income

For Form CT-W4 purposes, *gross income* means all income from all sources, whether received in the form of money, goods, property, or services, not exempt from federal income tax, and includes any additions to income from *Schedule 1* of Form CT-1040, *Connecticut Resident Income Tax Return*, or Form CT-1040NR/PY, *Connecticut Nonresident and Part-Year Resident Income Tax Return*.

Filing Status

Generally, the filing status you expect to report on your Connecticut income tax return is the same as the filing status you expect to report on your federal income tax return. However, special rules apply to married individuals who file a joint federal return but have a different residency status. Nonresidents and part-year residents should see the instructions to Form CT-1040NR/PY.

Check Your Withholding

You may be underwithheld if any of the following apply:

- · You have more than one job;
- · You qualify under Certain Married Individuals; or
- You have substantial nonwage income.

If you are underwithheld, you should consider adjusting your withholding or making estimated payments using **Form CT-1040ES**, *Estimated Connecticut Income Tax Payment Coupon for Individuals*. You may also select *Withholding Code* "D" to elect the highest level of withholding.

If you owe \$1,000 or more, after subtracting from your Connecticut income tax the amount withheld from your income for the prior taxable year, and any PE Tax Credit, you may be subject to interest on the underpayment at the rate of 1% per month or fraction of a month.

To help determine if your withholding is correct, see **Informational Publication 2023(7)**, *Is My Connecticut Withholding Correct?*

Certain Married Individuals

If you are a married individual filing jointly and you and your spouse both select *Withholding Code* "A," you may have too much or too little Connecticut income tax withheld from your pay. This is because the phase-out of the personal exemption and credit is based on your combined incomes. The withholding tables cannot reflect your exact withholding requirement without considering the income of your spouse.

To minimize this problem, and determine if you need to adjust your withholding using Line 2 or Line 3, see IP 2023(7).

Nonresident Employees Working Partly Within and Partly Outside of Connecticut

If you work partly within and partly outside of Connecticut for the same employer, you should also complete **Form CT-W4NA**, *Employee's Withholding or Exemption Certificate - Nonresident Apportionment*, and provide it to your employer. The information on

Form CT-W4NA and Form CT-W4 will help your employer determine how much to withhold from your wages for services performed within Connecticut. Residents of states with a "convenience of the employer" test will be subject to similar rules for work performed for a Connecticut employer. Any nonresident who expects to have no Connecticut income tax liability should choose *Withholding Code* "E."

Armed Forces Personnel and Veterans

If you are a Connecticut resident, your armed forces pay is subject to Connecticut income tax withholding unless you qualify as a nonresident for Connecticut income tax purposes. If you qualify as a nonresident, you may request that no Connecticut income tax be withheld from your armed forces pay by entering *Withholding Code* "E" on Line 1.

Military Spouses Residency Relief Act (MSRRA)

If you are claiming an exemption from Connecticut income tax under the MSRRA, you must provide your employer with a copy of your military spouse's Leave and Earnings Statement (LES) and a copy of your military dependent ID card.

See Informational Publication 2022(12), Connecticut Income Tax Information for Armed Forces Personnel and Veterans.

Employer Instructions

For any employee who does not complete Form CT-W4, you are required to withhold at the highest marginal rate of 6.99% without allowance for exemption. You are required to keep Form CT-W4 in your files for each employee. See Informational Publication 2023(1), Connecticut Employer's Tax Guide, Circular CT, for complete instructions.

Report Certain Employees Claiming Exemption From Withholding to DRS

Employers are required to file copies of Form CT-W4 with DRS for certain employees claiming "E" (no withholding is necessary). See IP 2023(1). Mail copies of Forms CT-W4 meeting the conditions listed in IP 2023(1) under *Reporting Certain Employees* to:
